

Dear Parent or Guardian:

My name is Michael Robinson, and I will be your child's AP Research teacher. I hope you will take the time to look over the information about the course on the class website:

**<http://www.hhsrobinson.org>**

Much of what students do will be on Schoology, but the class website above will also be used throughout the school year.

Below are some topics you may want to know about class expectations.

### **Materials Needed**

- Almost all work for the class will be completed using the student's computer. All assignments and assessments will be turned in or completed in Schoology.

### **Assignments and Readings**

- Students will complete a 4,00-5,000 original research paper by the end of the second semester.

### **Quizzes and Tests**

- AP Research is a unique class that does not have quizzes or tests. Students' grades will be determined by completing the preparation work for their research paper.

### **Contacting Me**

- It is expected that if there are any questions concerning assignments the student will first review all directions and information online in order to find the answer to his/her question. If students cannot find the answer, they should email me. It is the responsibility of the student to email me their questions or concerns.
- Parents and/or Guardians can email me any time with questions or concerns. However, I do request that parents and/or guardians do their best to allow their child to be the main person responsible for emailing me with their questions concerning assignments.

I am excited to be back at school, and I am looking forward to a successful school year.

Please let me know if you have any questions.

Sincerely,  
Michael Robinson
