

Threshold and Range

- **Threshold** is the minimum market size (population) needed to support a central place function (service).
- **Range** is the maximum distance people are willing to travel to obtain a central place function (service).
- What types of services would have a small threshold and range? a large threshold and range?

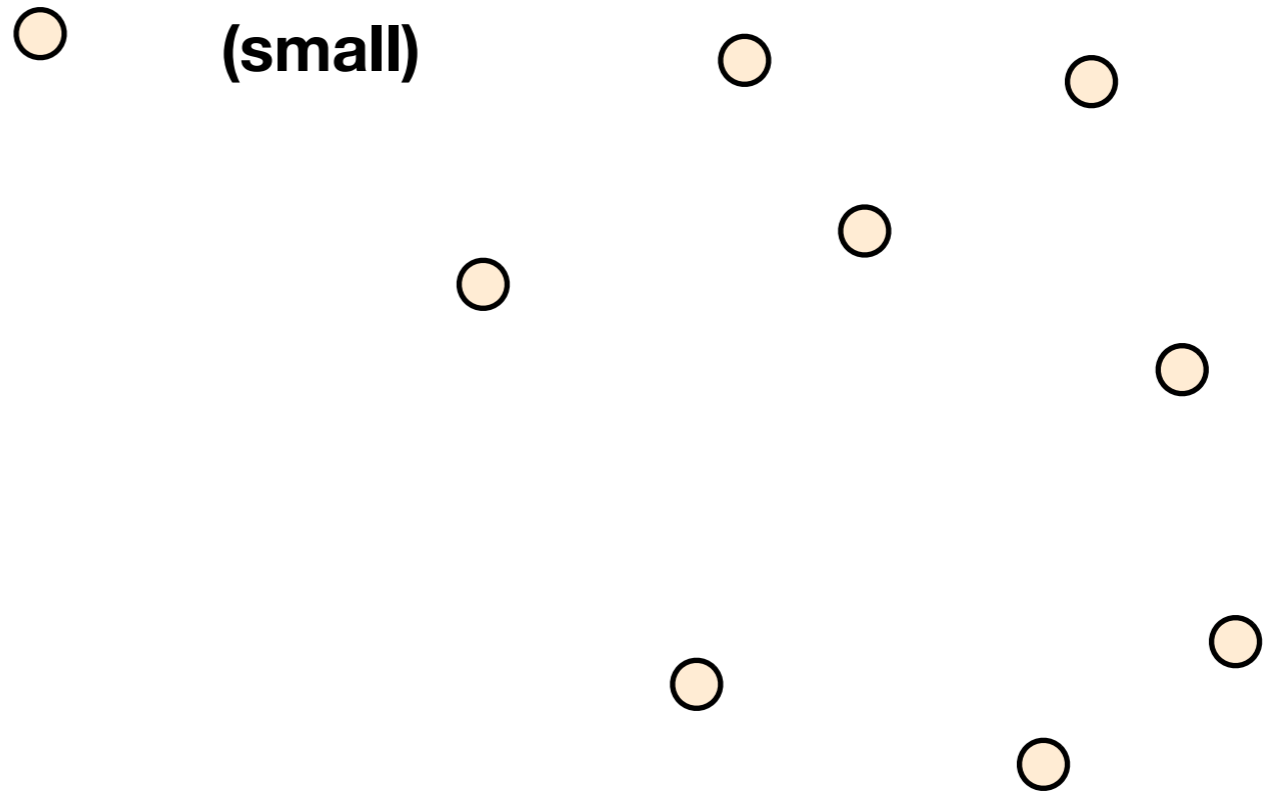

EXAMPLE of Threshold and Range

EXAMPLE of Threshold and Range

Convenience Stores

Walmart

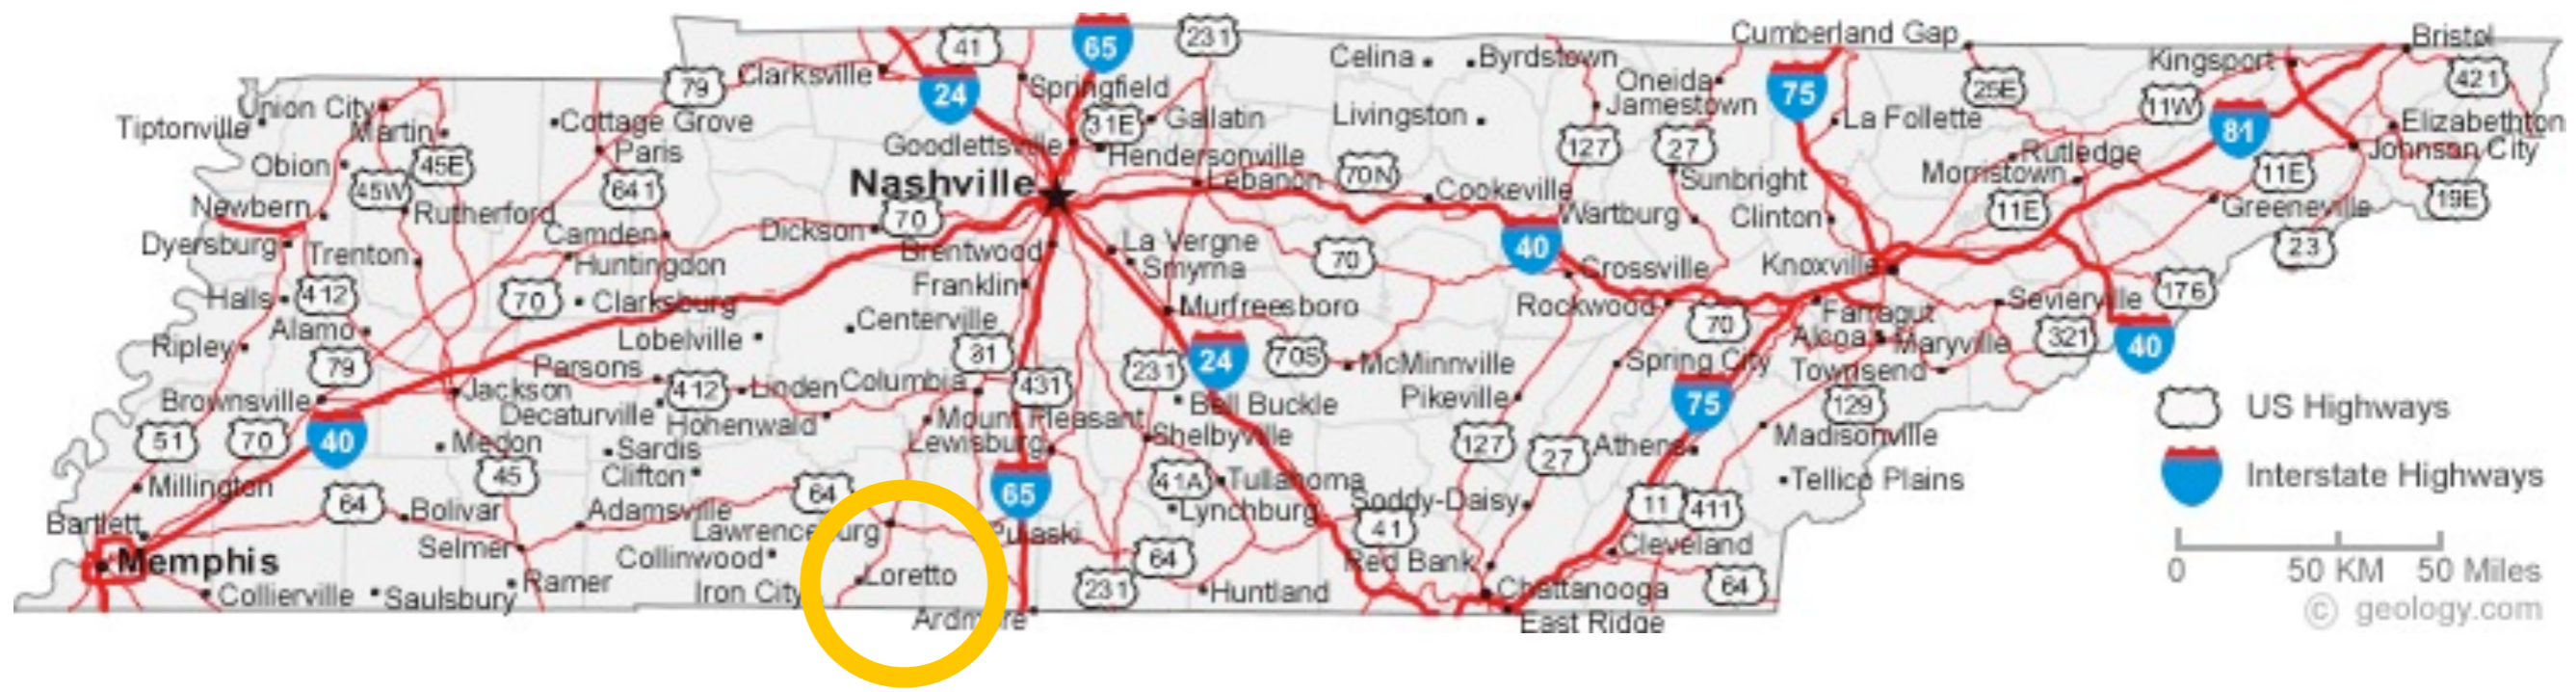

An aerial photograph of a rural landscape in Tennessee. The terrain is a patchwork of agricultural fields in various shades of green, brown, and tan. A prominent road or highway runs diagonally from the upper right towards the center. There are several small clusters of buildings, likely farmsteads or small towns, scattered throughout the landscape. The overall scene is typical of a rural agricultural region.
