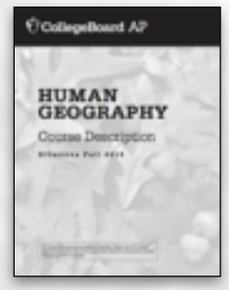
A. Knowledge of the geographic patterns and characteristics of human populations facilitates understanding of cultural, political, economic, and urban systems.

Use population density to explain the relationship between people and the environment.



Density Activity

Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	
Vietnam	
Singapore	
Spain	
Bangladesh	

Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	
Vietnam	
Singapore	1
Spain	
Bangladesh	

Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	
Vietnam	
Singapore	1
Spain	
Bangladesh	2

Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	3
Vietnam	
Singapore	1
Spain	
Bangladesh	2

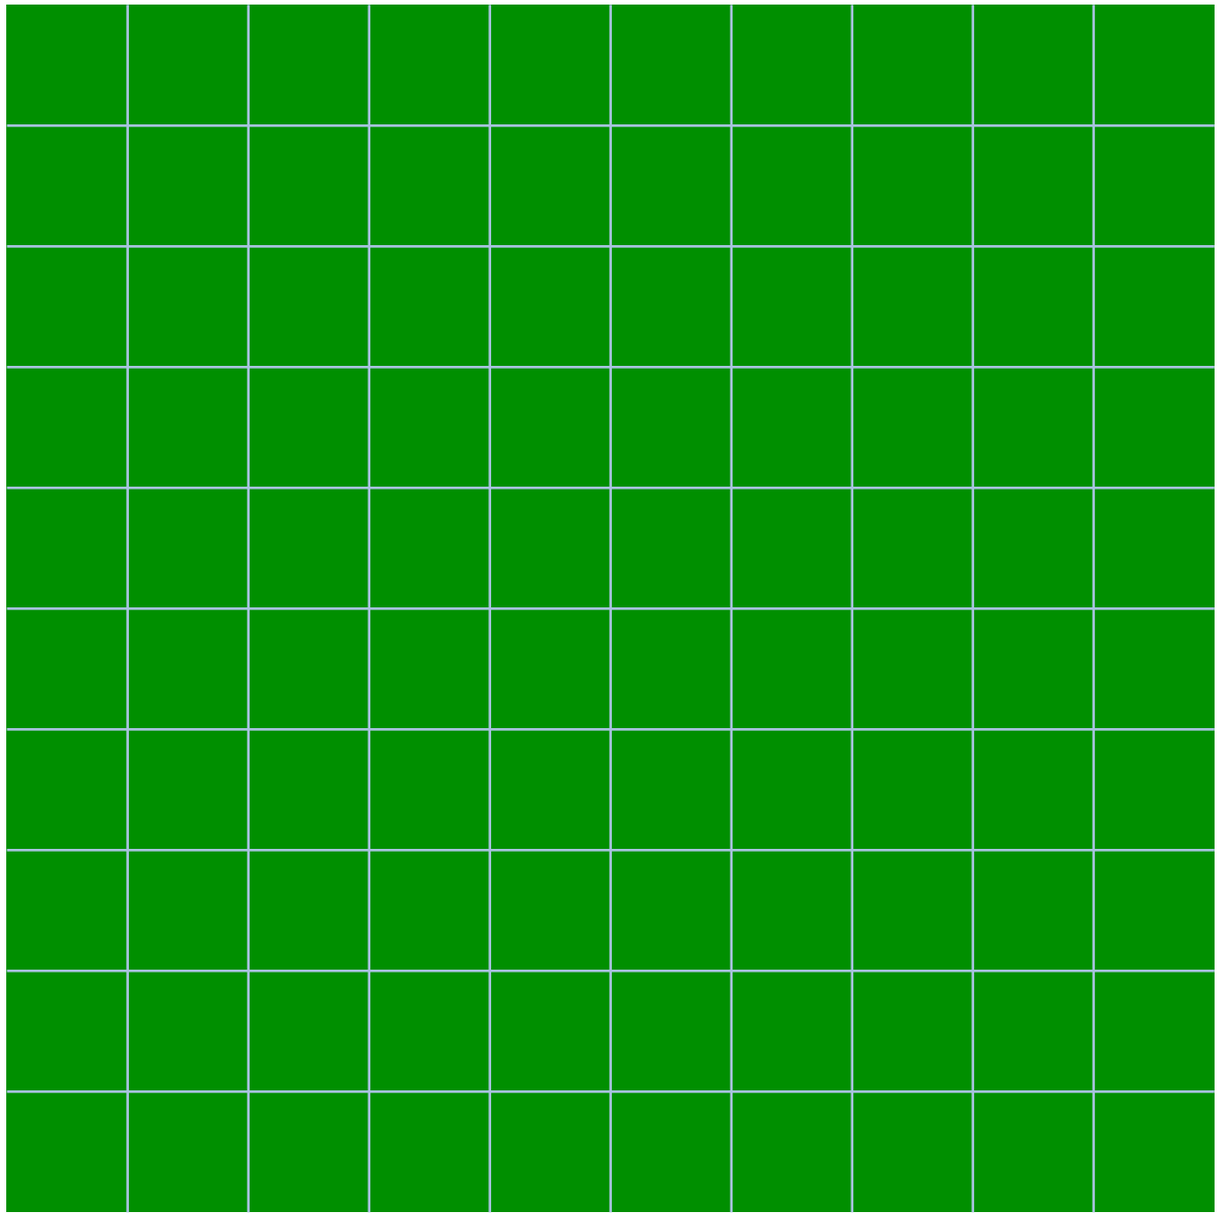
Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	3
Vietnam	4
Singapore	1
Spain	
Bangladesh	2

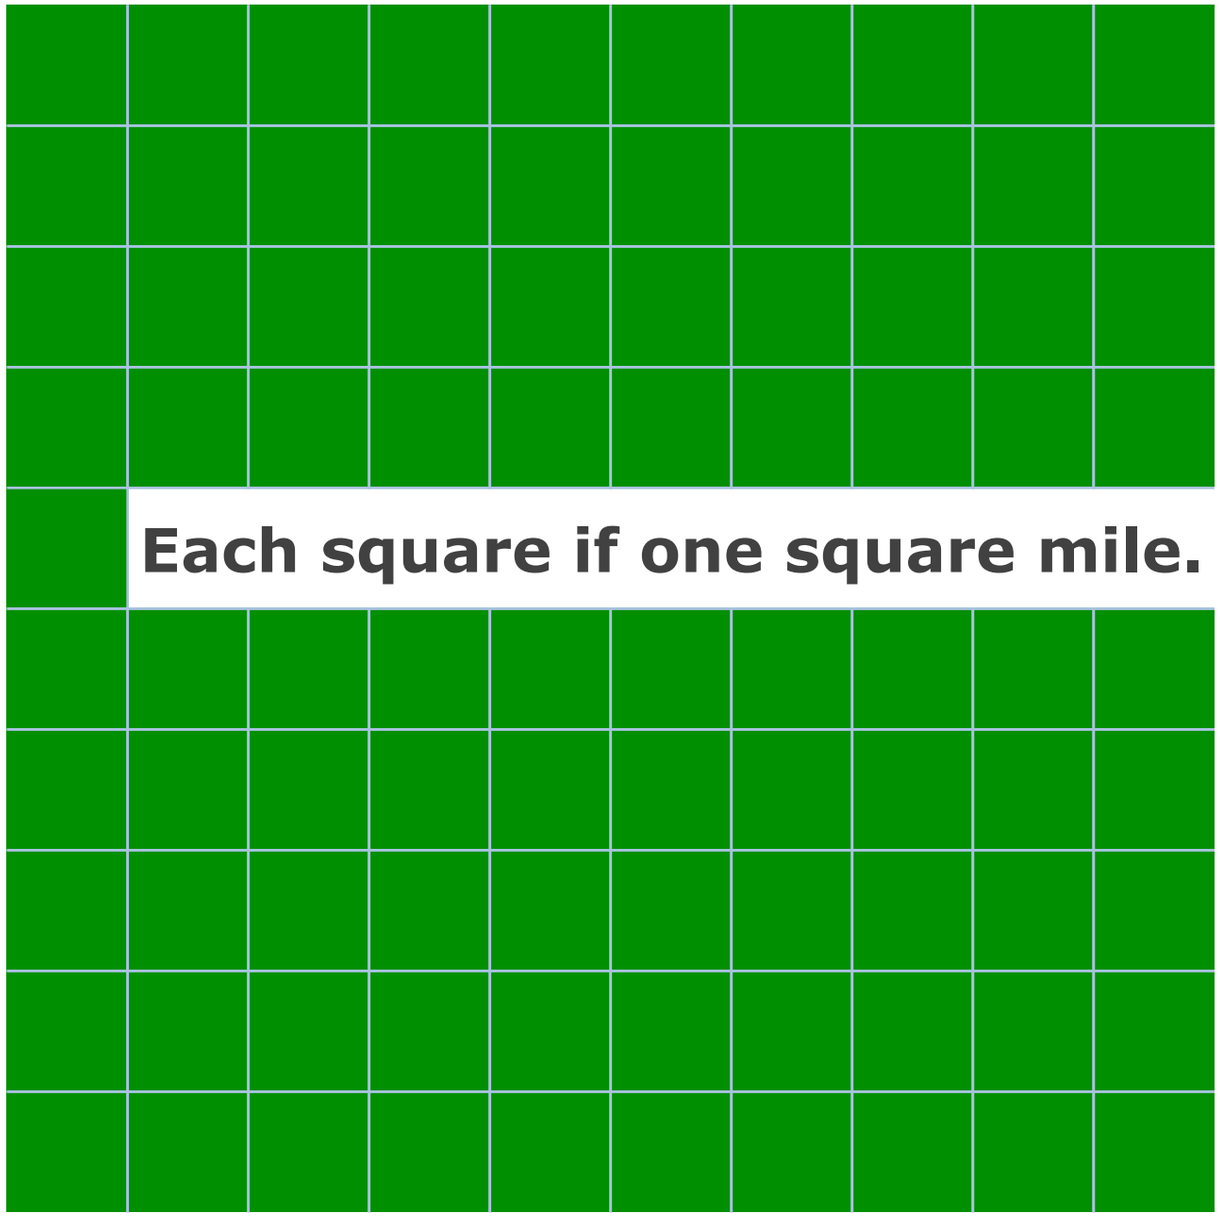
Place in order the countries with the highest population density to the lowest.

Country	Order
Netherlands	3
Vietnam	4
Singapore	1
Spain	5
Bangladesh	2

Arithmetic Density

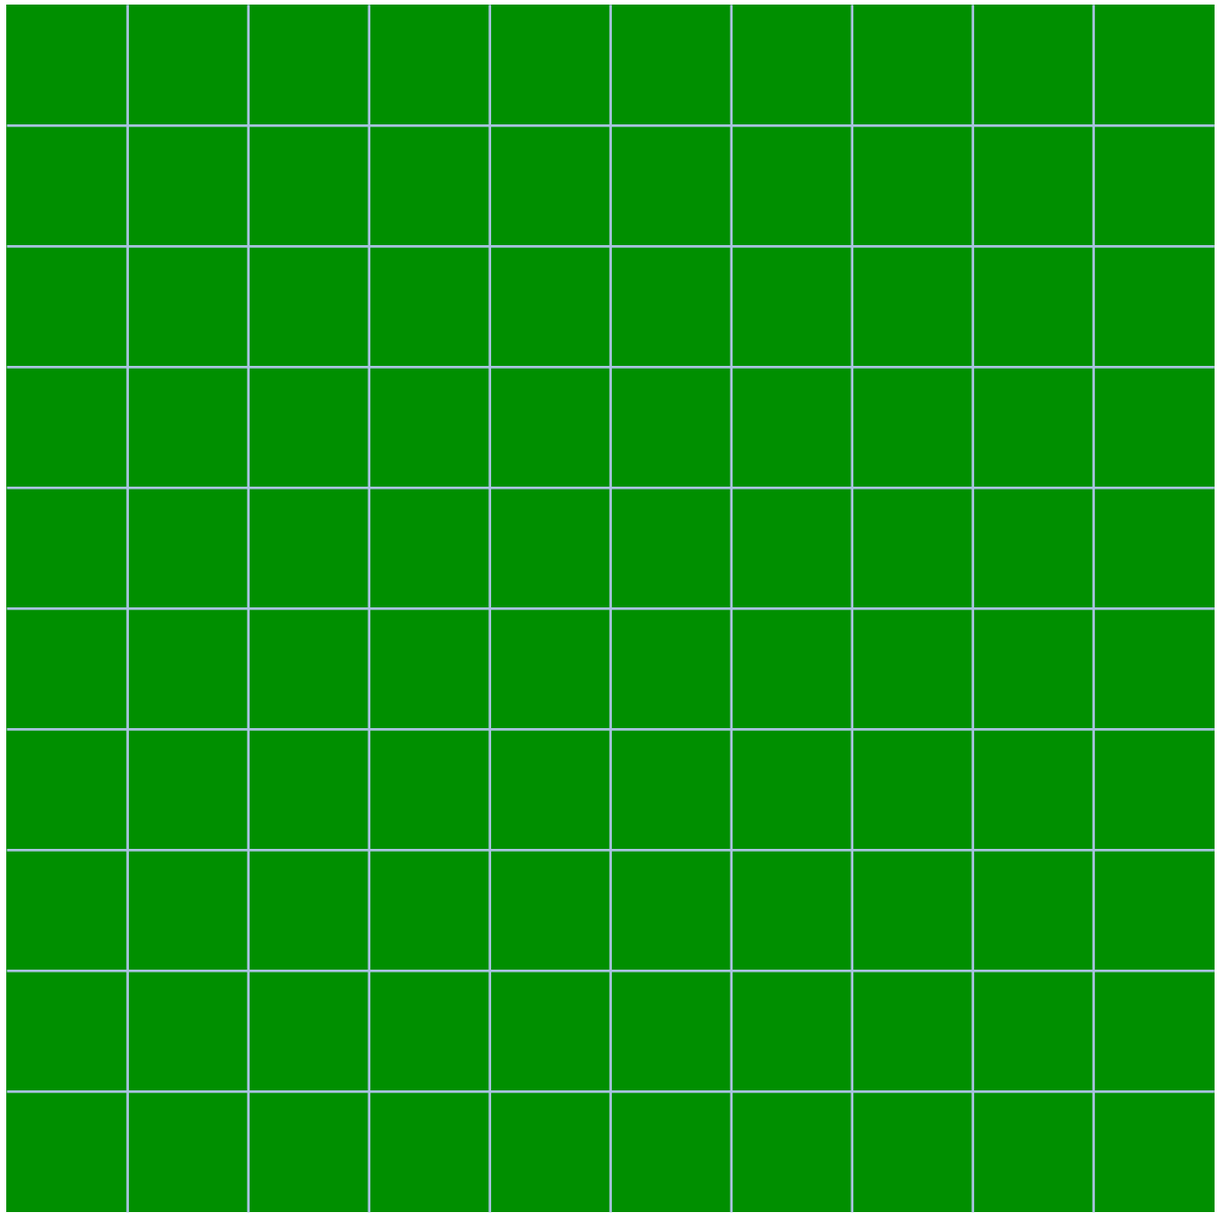


Arithmetic Density



Each square if one square mile.

Arithmetic Density



100 m²

Arithmetic Density

20 people per m²

Student Handout

There are multiple versions of the student handout to choose from, ranging from most challenging to least challenging. Select the one that you believe best fits the level of your students.

Least Challenging Student Handout

All Statistics Showing

Population and Physiological Densities Activity — Match the country with the correct statistics below each set of countries.

Example			
Canada		U.A.E.	
Egypt		U.S.A.	

A
Population - 4.0 million
Area in Km - 82,880
Arithmetic Density - 49
Physiological Density - 6,404

B
Population - 78 million
Area in Km - 995,450
Arithmetic Density - 78
Physiological Density - 2,668

C
Population - 300 million
Area in Km - 9,161,923
Arithmetic Density - 32
Physiological Density - 179

D
Population - 33 million
Area in Km - 9,984,671
Arithmetic Density - 4
Physiological Density - 78

1			
Australia		Netherlands	
India		Singapore	

A
Population - 4.4 million
Area in Km - 682.7
Arithmetic Density - 6,483
Physiological Density - 440,998

B
Population - 16 million
Area in Km - 33,883
Arithmetic Density - 484
Physiological Density - 2,205

C
Population - 1.0 billion
Area in Km - 2,973,190
Arithmetic Density - 368
Physiological Density - 753

D
Population - 20 million
Area in Km - 7,617,930
Arithmetic Density - 3
Physiological Density - 43

2			
Costa Rica		Japan	
Denmark		Qatar	

A
Population - 863,051
Area in Km - 11,437
Arithmetic Density - 75
Physiological Density - 4,601

B
Population - 128 million
Area in Km - 374,744
Arithmetic Density - 340
Physiological Density - 2,924

C
Population - 4 million
Area in Km - 50,660
Arithmetic Density - 79
Physiological Density - 1,803

D
Population - 5.4 million
Area in Km - 42,394
Arithmetic Density - 128
Physiological Density - 244

3			
Bangladesh		Iceland	
Hong Kong		Spain	

A
Population - 6.8 million
Area in Km - 1,042
Arithmetic Density - 6,621
Physiological Density - 131,101

B
Population - 300,000
Area in Km - 100,250
Arithmetic Density - 3
Physiological Density - 4,229

C
Population - 145 million
Area in Km - 133,910
Arithmetic Density - 1,078
Physiological Density - 1,946

D
Population - 40 million
Area in Km - 499,542
Arithmetic Density - 81
Physiological Density - 297

Somewhat Challenging Student Handout

One Statistic Missing

Population and Physiological Densities Activity — Match the country with the correct statistics below each set of countries.

Example			
Canada		U.A.E.	
Egypt		U.S.A.	

A
Population -
Area in Km - 82,880
Arithmetic Density - 49
Physiological Density - 6,404

B
Population - 78 million
Area in Km -
Arithmetic Density - 78
Physiological Density - 2,668

C
Population -
Area in Km - 9,161,923
Arithmetic Density - 32
Physiological Density - 179

D
Population - 33 million
Area in Km -
Arithmetic Density - 4
Physiological Density - 78

1			
Australia		Netherlands	
India		Singapore	

A
Population - 4.4 million
Area in Km -

Population - 300,000
Area in Km - 100,250
Arithmetic Density - 3
Physiological Density - 4,229

C
Population - 145 million
Area in Km - 133,910
Arithmetic Density - 1,078
Physiological Density - 1,946

D
Population - 40 million
Area in Km - 499,542
Arithmetic Density - 81
Physiological Density - 297

3			
Bangladesh		Iceland	
Hong Kong		Spain	

A
Population - 6.8 million
Area in Km - 1,042
Arithmetic Density - 6,621
Physiological Density - 131,101

B
Population - 300,000
Area in Km - 100,250
Arithmetic Density - 3
Physiological Density - 4,229

C
Population - 145 million
Area in Km - 133,910
Arithmetic Density - 1,078
Physiological Density - 1,946

D
Population - 40 million
Area in Km - 499,542
Arithmetic Density - 81
Physiological Density - 297

3			
Bangladesh		Iceland	
Hong Kong		Spain	

A
Population - 6.8 million
Area in Km - 1,042
Arithmetic Density - 6,621
Physiological Density - 131,101

B
Population - 300,000
Area in Km - 100,250
Arithmetic Density - 3
Physiological Density - 4,229

C
Population - 145 million
Area in Km - 133,910
Arithmetic Density - 1,078
Physiological Density - 1,946

D
Population - 40 million
Area in Km - 499,542
Arithmetic Density - 81
Physiological Density - 297

Population and Physiological Densities Activity — Match the country with the correct statistics below each set of countries.

Example			
Canada	D	U.A.E.	A
Egypt	B	U.S.A.	C

A
Population - 4.0 million
Area in Km - 82,880
Arithmetic Density - 49
Physiological Density - 6,404

B
Population - 78 million
Area in Km - 995,450
Arithmetic Density - 78
Physiological Density - 2,668

C
Population - 300 million
Area in Km - 9,161,923
Arithmetic Density - 32
Physiological Density - 179

D
Population - 33 million
Area in Km - 9,093,507
Arithmetic Density - 4
Physiological Density - 78

1			
Australia	D	Netherlands	B
India	C	Singapore	A

A
Population - 4.4 million
Area in Km - 682.7
Arithmetic Density - 6,483
Physiological Density - 440,998

B
Population - 16 million
Area in Km - 33,883
Arithmetic Density - 484
Physiological Density - 2,205

C
Population - 1.0 billion
Area in Km - 2,973,190
Arithmetic Density - 368
Physiological Density - 753

D
Population - 20 million
Area in Km - 7,617,930
Arithmetic Density - 3
Physiological Density - 43

2			
Costa Rica	C	Japan	B
Denmark	D	Qatar	A

A
Population - 863,051
Area in Km - 11,437
Arithmetic Density - 75
Physiological Density - 4,601

B
Population - 128 million
Area in Km - 374,744
Arithmetic Density - 340
Physiological Density - 2,924

C
Population - 4 million
Area in Km - 50,660
Arithmetic Density - 79
Physiological Density - 1,803

D
Population - 5.4 million
Area in Km - 42,394
Arithmetic Density - 128
Physiological Density - 244

3			
Bangladesh	C	Iceland	B
Hong Kong	A	Spain	D

A
Population - 6.8 million
Area in Km - 1,042
Arithmetic Density - 6,621
Physiological Density - 131,101

B
Population - 300,000
Area in Km - 100,250
Arithmetic Density - 3
Physiological Density - 4,229

C
Population - 145 million
Area in Km - 133,910
Arithmetic Density - 1,078
Physiological Density - 1,946

D
Population - 40 million
Area in Km - 499,542
Arithmetic Density - 81
Physiological Density - 297

INDONESIA	
Crude Birth Rates	20
Crude Death Rates	6
Net Migration Rate	-1
Fertility Rate	2.6
Ages Less Than 15	29
Ages Greater Than 65	5

UNITED STATES
